information in addition to the “docket number” associated with that legal matter, such as, by way of example, “the application number” or “the mail date of the Office action” denigrates the accuracy and reliability of a docket by slowing, or delaying the rapid and complete entry of the minimum information necessary to assure that the docket is sufficiently reliable. Within a law office, “the application number” would need to be cross-indexed to the “attorney’s docket number” for purposes of reporting correspondence to a client, for returning a file to either physical or virtual storage, and for quickly locating a file in either physical or virtual storage; use of either “the application number” or “the mail date of the Office action” adds nothing to assist in either the ease of performing these tasks or in reliably performing these tasks. handling of correspondence initiated by the U.S. Patent & Trademark Office, and the misplacement of mail by both the U.S. Patent & Trademark Office and by the U.S. Postal Service over a period extending over more than one decade.

12. The abbreviated practice published in 1156OG53 was a direct result of the agreement by the U.S. Patent & Trademark Office with your undersigned attorney, that the Office has, and continues to have, a serious inability to assure to practitioners timely receipt of correspondence issued by the Office.
13. The abbreviated practice published in §711.03(c) of the *MANUAL OF PATENT EXAMINING PROCEDURE*, 7th Ed. (July 1998) was a direct result of the agreement by the U.S. Patent & Trademark Office with your undersigned attorney, that the Office has, and continues to have, a serious inability to assure to practitioners timely receipt of correspondence issued by the Office.
14. A *Decision On Petition* bearing indicia stating “RECEIVED DEC 22 2008 OFFICE OF PETITIONS stated that Applicant’s Petition filed on the 1st of December 2008 was “dismissed.” The *Decision On Petition* neither denied that Applicant’s Petition fully complied with the simplified procedure published in the abbreviated practice set forth in 1156OG53, nor alleged that the docket described in Applicant’s Petition was incompletely described in Applicant’s Petition, nor alleged that the docket

described in Applicant's Petition failed to establish that the docketing system is sufficiently reliable, nor denied that the Office continues to have a serious inability to assure to practitioners timely receipt of correspondence issued by the Office.

REMARKS

Under the abbreviated practice set forth in 1156OG53 and §711.03(c) of the *MANUAL OF PATENT EXAMINING PROCEDURE*, 7th Ed. (July 1998), no fee is incurred by the foregoing Petition. The three requirements for a showing of non-receipt have been already fully satisfied by Applicant's Petition timely filed on the 1st of December 2008, namely by Applicant's submission of (a) the statement by Applicant's undersigned attorney that the Office Action has not been received, (b) the attached photocopy of the jacket of the file wrapper, and (c) the attached photocopy of the docket entries for the period of time during which that correspondence would normally have been received, all of which conclusively establish the correspondence was neither delivered to nor received by the Applicant's undersigned attorney.

The attached copy of the practitioner's record(s) as required shows non-receipt of the Office action includes the "master" docket for the firm. That is, if a three month period for the reply was set in the non-received¹⁴ [*sic*, the not received] Office action [*i.e.*, the Office action not received], a copy of the master docket report showing all replies docketed for a date three months from the mail date of the non-received Office action must be submitted as documentary proof of non-receipt of the office action. Applicant's petition also shows other evidence such as, but not limited to, the following: the application file jacket; incoming mail log; calender; reminder system; or the individual docket record for the application in question.

The unnumbered Paper entitled *Decision On Petition* which bears the legend **RECEIVED**

¹⁴ *Decision On Petition* bearing indicia stating "RECEIVED DEC 22 2008 OFFICE OF PETITIONS, p. 2.

DEC 22 2008 OFFICE OF PETITIONS suggests that each entry in a docket should be identified by (i) “the application number”, (ii) “attorney docket number”, (iii)“ the mail date of the Office action”, and (iv) “the due date for the response.”

The experience of Applicant’s undersigned attorney however, has taught that this is unwise, and inimical to accuracy of each entry and to maintenance of reliability. The experience of Applicant’s undersigned attorney has taught that simplification is essential to maintenance of a docket that is sufficiently reliable.

The experience of Applicant’s undersigned attorney has also taught that maintenance of a docket by identifying each entry for the corresponding calendar year, on that page which bears the date of the year, month and day upon which a response to the correspondence is required by law for that correspondence in the associated the legal matter to which the correspondence pertains, by information in addition to the “docket number” associated with that legal matter, such as, by way of example, “the application number” or “the mail date of the Office action” denigrates the accuracy and reliability of a docket by slowing, or delaying the rapid and complete entry of the minimum information necessary to assure that the docket is sufficiently reliable. Within a law office, “the application number” would need to be cross-indexed to the “attorney’s docket number” for purposes of reporting correspondence to a client, for returning a file to either physical or virtual storage, and for quickly locating a file in either physical or virtual storage; use of either “the application number” or “the mail date of the Office action” adds nothing to assist in either the ease of performing these tasks or in reliably performing these tasks. The page-dated bound book itself inherently contains the “due date of the response.”

Applicant respectfully observes that this *RENEWED PETITION* has been filed pursuant to the abbreviated practice set forth in 1156OG53 and §711.03(c) of the *MANUAL OF PATENT EXAMINING PROCEDURE*, 7th Ed. (July 1998), and the *MANUAL OF PATENT EXAMINING PROCEDURE*, 8th Ed., Rev. 6 (September 2007), and guidance given by the *Manual of Patent Examining Procedure*, 8th Edition, Revision 7, §711.03(c)(I)(A), by and through its undersigned attorney, in reply to the demand set forth in *Decision On Petition* bearing indicia stating “RECEIVED DEC 22 2008 OFFICE OF PETITIONS; unexplained in that *Decision On Petition* bearing indicia stating “RECEIVED DEC 22 2008 OFFICE OF PETITIONS is why an unauthorized procedure concocted by one member of the Examining staff has been substituted for the simplified procedure published in the abbreviated practice set forth in 1156OG53 ? This is a matter of grave concern to the undersigned attorney because the abbreviated practice published in 1156OG53 has never been repealed or revised, and the *Manual of Patent Examining Procedure*, 8th Edition, Revision 7, §711.03(c)(I)(A) has no force of law. Moreover, all of the factual evidence necessary to make a showing beyond a doubt of the non-receipt of the Office action dated on the 7th of April 2008, was timely presented in Applicant’s earlier filed *Petition To Withdraw Holding Of Abandonment*.

RELIEF REQUESTED

Accordingly, the Commissioner is respectfully requested to:

- A. Immediately re-issue the Office Action identified as Paper No. 20080326;
- B. Immediately re-start the period for Applicant's response to Paper No. 20080326;
- C. Strike, and remove from the prosecution history any indication of abandonment;
- D. Forward the prosecution history to the Examiner for examination on the merits; and
- E. Grant such other and further relief as just may require.
